## Steam cleaning - start doing it.

- The most customer-friendly steam cleaner on the market made for you!
- Customized 4.3" LED Touch screen digital interface for exclusive user experience.
- Unique AISI 304 stainless steel top and bottom body shell with mirror shine effect.
- Detailed information about pressure, temperature, working hours, attachments, service.
- 110 gr steam output per minute - up to 50% more steam amount than other competitors.
- Three-tier steam control at your command.
- Specially designed dome boiler for 100% heating efficiency.
- Pressure release function for immediate service maintenance.
- Driest steam on the market.
- The fastest service maintenance done in less than 15 minutes.
- The biggest steam boiler on the market with 2.2 l capacity - up to 50% bigger than other competitors.
- Specially designed fiber glass attachments for better quality and durability.
- Unlimited water ejection function for saving hours of valuable time.
- Improved carry on handle.
- Automatic Refill System for unlimited steam and water ejection.
- BlueSteam™ technology for high quality dry steam.

## INCLUDED ACCESSORIES

Round copper brush  
Ø 30 mm

Round horse hair brush  
Ø 30 mm

Round steel brush  
Ø 30 mm

Round plastic brush  
Ø 60 mm

Round plastic brush  
Ø 30 mm

Plunger

Point nozzle  
with metal brass tip

Extension pipes

Steam hose

Triangular brush

Universal brush

Bottle for filling

## ADDITIONAL ACCESSORIES

Air Freshener

Thermofibers

SANIX

technical data	measure units	specs
power supply	V - Hz	220/110 - 50/60
working pressure	bar / Psi	7/101.5
boiler power	W	2000/1650
steam production	g / oz per min	110/3.9
power absorption	A	9/220 V - 13/110 V
start up time	min	5
boiler temperature	°C / °F	170/340
boiler capacity	liter / gallon	2.2/0.58
boiler material	type	AISI 304
steam output regulation	electronic	3-tier steam control
water ejection	yes	continuous use
body material	type	INOX AISI 304
power cable length	m / ft	5/16.4
steam hose length	m / ft	2.5/8.2
net weight of the unit	kg / lbs	6.5/14.3

# Top application areas:

## Medical practices

High temperature saturated dry steam is 100% effective against viruses, bacteria and contaminants. It eliminates harmful microorganisms within seconds on all types of surfaces and equipment without leaving a dangerous residue.

## Daily life

Homes, work places and personal vehicles are the most important part of our lives and taking care of them is essential. Cleaning with dry steam removes deeply ingrained dirt and leaves your surroundings and equipment clean and fresh.

## Public places

Sustainable, chemical-free cleaning is essential in communal areas. The surfaces of all indoor furniture, walls, ceilings and floors in schools, cinemas and shopping malls are deep cleaned. Mold and germs are also reduced to a minimum, without negative side effects caused by toxic chemicals.

## Food and hospitality industry

Dry steam cleaning is required for food production areas and production lines. It prevents dangerous germs and bacteria spreading on the produced food. The numerous benefits for accommodation businesses include sanitizing rooms between guests as well as disinfecting communal areas.

## Sport and beauty

Dry steam is ideally suited for cleaning large areas saving time and water. Say goodbye to chemical residues in gyms, spas and beauty salons.

## Public transport

Sanitizing large vehicles used in public transport is time consuming if you lack the right equipment. EV saves time, energy, water and money ensuring perfect hygiene for all mass transport.

100% VIRUCIDAL system against human CORONAVIRUS 229E, based on the test UNI EN ISO 16777: 2018
