Innan du börjar:

1. Vid montering av Medium och Large bör ni vara 2 personer
2. Välj vilken sida du vill ha buren på i bagaget, denna instruktion är utförd på höger sida **(se sida 3)**
3. Montera på plant underlag och använd exempelvis en filt för att både skydda golvet och buren
4. Viktigt att inte dra åt skruvarna i början utan att det blir en efterdragning/åtdragning när buren är färdigmonterad **(se sida 9)**
5. Vid montering av bur med tröskel är det viktigt att spara skruv x2 och bricka x2 för eventuell användning i framtiden **(se sida 14)**
6. Uppmärksamma att det kommer bli 2st skruv över vid montering av XSmall, Small och Medium **(se sida 5 & 6)**

Ennen kuin aloitat:

1. Medium ja Large -häkkien asennuksessa tarvitaan kaksi henkilöä.
2. Valitse kummalle puolelle auton tavaratilaa aiot laittaa häkin, tämä ohje on suunniteltu oikealle puolelle tavaratilaa (ks.sivu 3)
3. Kasaa häkki tasaisella alustalla ja jonkin pehmusteen päällä suojellaksesi häkkiä ja alustaa.
4. On tärkeää ettet kiristä ruuveja loppuun asti ennen kuin häkki on kokonaan kasattu (ks. sivu 9)
5. Kun asennat häkkiä jossa on kynnyks, säästä 2 ruuvia ja mutteria mahdollista tulevaa käyttöä varten (ks. sivu 14)
6. Huomaa että häkkien XSmall, Small ja Medium asennuksesta jää 2 ruuvia yli (ks. sivu 5 ja 6)

Before you begin:

1. When mounting Medium and Large, you should be two individuals
2. Choose which side you want the cage on in the luggage, this instruction is performed on the right side (see page 20)
3. Mount on a level surface and use, for example a blanket to protect both the floor and the cage
4. It is important not to tighten the screws at the beginning. tightening / tightening when the cage is pre-assembled (See page 26)
5. When mounting a cage with a trashold, it is important that save screw x2 and washer x2 for any future use (see page 31)
6. Note that there will be 2 screws over at assembly of XSmall, Small and Medium (see pages 22 & 23)

Bevor Sie beginnen:

1. Wenn Sie Medium und Large montieren, sollten Sie zwei Personen sein.
2. Wählen Sie, auf welcher Seite Sie den Käfig im Kofferraum haben möchten, in dieser Anweisung wird dies auf der rechten Seite ausgeführt (siehe Seite 20)
3. Montieren Sie auf einer ebenen Fläche und verwenden Sie zum Beispiel eine Decke zum Schutz des Bodens und des Käfigs .
4. Es ist wichtig, die Schrauben am Anfang nicht festzuziehen. Ziehen Sie die Schrauben fest, wenn der Käfig fertig montiert ist.
5. Bei der Montage eines Käfigs mit Schwelle ist es wichtig, Schraube x2 und Unterlegscheibe x2 fuer eine spätere Verwendung aufzubewahren.
6. Beachten Sie, dass zwei Schrauben bei der Montage von XSmall, Small und Medium übrig bleiben (siehe Seite 22 & 23)
