Salt Licks

SALT

KNZ® HORSE

KNZ salt licks are essential to secure the individual need of salt, minerals, trace elements and vitamins, essential for good health, and therefore the performance of your live stock. A possible lack of these elements can result in reduced appetite, milk yield, growth and natural resistance. Also, fertility problems and weight loss can increase. Each animal has it's individual (salt) need. For this reason KNZ has developed special licks for cattle, calf, sheep, horses and game. Because of the natural licking behaviour of animals they are able to balance their need for salt, minerals, trace elements and vitamins by means of a salt lick.
All KNZ licks are developed in intensive collaboration with end-users, nutritionists and universities. KNZ salt licks are made of a very pure salt without any artificial colouring agents, fragrances and flavourings agents.

PRODUCT DESCRIPTION

The KNZ horse lick has a dedicated recipe to secure the mineral and trace elements need of your horses The KNZ Horse lick contians aditional to the minerals mangnesium and sodiumchloride trace elements like copper, iodine iron and selenium.

Store dry
Durability 3 years

COMPOSITION as typical

Salt type: unsieved salt

Components			
Minerals	**Content Unit**	**Raw material**	
Sodium Chloride (NaCl)	95.7 %*	NaCl	Sodium Chloride
content of sodium	37.6 %	NaCl	Sodium Chloride
Magnesium (Mg)	2.0 %	MgO	Magnesium Oxide
Trace elements			
Zinc (Zn)	1400 mg/kg	ZnO	Zinc Oxide
Iron (Fe)	1000 mg/kg	Fe_2O_3	Iron Oxide
Copper (Cu)	150 mg/kg	$CuCO_3.Cu(OH)_2.H_2O$	Copper hydroxy carbonate
Iodine (I)	60 mg/kg	$Ca(IO_3)_2$	Calcium iodate
Selenium (Se)	10 mg/kg	Na_2SeO_3	Sodium Selenite

* Based on dried pure salt

GMP registration no.
PDV 500064

PARTICLE SIZE DISTRIBUTION

n.a.

DENSITY

2000 kg/m^3

Certified QM system,

DELIVERY UNITS

Salt Lick	**2 kg x 6 x 34**
Article number	3628
EAN (single unit)	87158519
EAN (colli)	8715800100530
Pallet	Euro HT 120 x 80 cm
Layers	2
n / layer	17
Gross weight	441 kg
Net weight	408 kg

HS code
23099096
CAS registration No.
7647-14-5
Einecs-ident No.
231-598-3

The salt licks of AkzoNobel are produced according to GMP+.
All salt licks are free of gluten, pathogens, allergens, and contain no micro-organisms and/or traces of mollusca (shellfish and/or molluscs).
