# Shaping the future of light

Philips Automotive, is the world's leading supplier of lamps to the automotive industry and aftermarket.

Our technological innovations have been on the forefront of automotive lighting for more than 100 years and have led to the advancement and modernization of automotive lighting as we know it today.

Since 1914 our passion has been to increase safety through meaningful innovations that enhance people's lives on the move, making their drive safer and more comfortable.

We are one of the **first manufacturers** of modern electric automotive lights and our lighting innovations have been landmarks in the history of automotive lighting. In 1936 we introduced the **Duplolum Selective**, the first modern headlight featuring a far-reaching beam, ensuring greater safety at higher speeds.

Our **Duplo-D** featured a unique, asymmetrical passing beam that would not blind oncoming motorists.

In 1962 we created the **H1**, the world's first halogen headlamp. As cars became more powerful and speeds increased, our headlamps delivered greater safety through technological advancements and more powerful light.

Our revolutionary **H4** was the first two-filament halogen headlamp. In 1991 we unveiled the world's **first xenon lighting solution** on the BMW 7-series.

In 2004 we introduced the first mercury-free HID (high-intensity discharge) headlamp! And the world's first fully-equipped **LED headlight** was fitted with powerful **Philips LEDs**!

Our new **Xenon WhiteVision** lamps create an intense white look for your car and improve your visibility. The perfect choice for xenon headlights that match the look of LED lights.

Discover also our **WhiteVision** halogen lamps with their stylish and distinctive **white xenon effect**! WhiteVision is the right choice for drivers wanting to drive **in style without compromising on safety!**

Our professional **LED Inspection lamps** bring our history of automotive technological innovations from the street to the **shop!** Designed for **maintenance** and **long-term inspection work**, our **LED Inspection lamps illuminate every detail with pinpoint precision** while eliminating shadows.

Discover our new **HDL10 work headlamp!** This high-power LED work headlamp is the perfect tool for **hands-free** repairs. Featuring a powerful LED light for **high-precision tasks** as well as an **eco mode** for quick inspections. With its 90° adjustable lamp you can easily direct the 50° wide-angle beam where you need it most.

**Pocket power!** Our new **RCH5** Rechargeable compact lamp **packs a punch!** The 3 high-power SMD LEDs eliminate darkness with superior bright light. Thanks to its ultra-slim design, the RCH5 fits perfectly in a pocket or on the handy belt-clip. With a strong magnet on the flexible bottom and a 360° retractable hook, the RCH5 can be placed anywhere for **hands-free** use.

See our entire range of Professional LED inspection lamps and you'll know why **darkness has nowhere to hide!**

Our passion is **making your drive a safer one** by offering you today, the **lights of tomorrow to go even farther!**

# Safety you can see!

For over 100 years we have been continuously innovating automotive lighting. With every innovation we have only one goal – **your safety**.

From the first headlamp to **state-of-the-art LED technology**, our goal has been to make driving as **safe** as it can be. The products we develop are designed to offer drivers the **maximum visibility** on the road. Lights that are as powerful and efficient as they are long-lasting.

Automotive design **innovations** continue to develop at a fast pace: engine design, fuel economy, comfort and of course **safety**. And as the number of cars on the road increases so does the need to improve safety in every aspect of driving. This is where lighting plays an important role. When we increase the headlamps' **light output** and the **clarity** of the beam, not only can drivers **see better**, they are **seen better** too.

All our products are designed to **increase driver safety**. With a wide selection of products on the market, we offer every driver lighting for the road that keeps them **safer**. Because we understand that safer driving is driving that offers you a **clearer view of the road**. And when you see more you have **more time to react** to hazards.

Safer vehicles with improved lighting really do make a difference. That's **safety you can see**.

## Philips original equipment quality: our high manufacturing standards

We are committed to producing **best-in-class products** and **services** in the Original Equipment Manufacturer (OEM) market as well as in aftermarket. Our products are manufactured from **high-quality materials** and tested to the highest specifications to maximize the **safety** and driving **comfort** of our customers. Our products are meticulously **tested, controlled** and **certified** to the highest ECE requirements and ISO standards.

- We are the **choice** of all major car manufacturers
- Our lighting is equipped on **one in two cars** in Europe and one in three in the world
- Advanced **UV-quartz** glass technology
- Manufacturing processes that **exceed** current industry **specifications**.

### Feel safe, drive safe

**For over 100 years** we've been **leading** the way, showing you the road and taking you home. You may not think about us, but we do little else than think about you. That's why our lighting solutions are the most **reliable** and **powerful** on the market today, far surpassing industry standards.

Light is the first and only part of the safety circle that actually helps **prevent accidents**, so **safety** begins with seeing and being seen. Our products produce powerful and precise light, combining **performance** and **reliability** to make your drive a safe one. We produce high quality, efficient lighting solutions because we know that **your life depends on it**.

### Care how you drive

Our engineers have been pioneering some of the most innovative and **sustainable** lighting. Our development of LEDs along with our new xenon range means **more light** and **less energy consumption**. We produce **reliable, longer-lasting** products that minimize environmental impact by producing **less waste** in compliance with the EU Waste Electrical and Electronic Equipment Directive (WEEE). We continue to lead the lighting industry in **reducing** the amount of hazardous material used, surpassing the EU RoHS requirements for mercury.

### Drive with style

Today's drivers are not only looking for more safety and reliability, they're looking for more performance and style. They want to fully customize their ride with their own unique look while staying safe. With our **WhiteVision** range, you are doing just that.

With its **intense xenon-white effect** you obtain maximum white light that gives your vehicle the clean and powerful look you've been waiting for. Your premium driving experience has been now extended to our xenon range with the new **Xenon WhiteVision**. **Safety has never been so attractive**.

# Don't compromise on **safety**, change in **pairs**

## 2 new headlamps are safer than 1

For many years drivers have seen the value of **changing in pairs**. Whether it be tires, shock absorbers, brake pads and discs, the **safety** and **financial advantages** of replacing both worn parts have become common practice. We apply the same **common-sense** approach to car headlamps.

The **benefits** for drivers and the automotive trade are significant. It's simply more efficient to **change both headlamps** while your car is in the workshop, rather than only replace the failed one. New, modern lamps have increased light output and increased performance, offering a safer driving experience.

**Changing in pairs** also avoids the frequent problem of follow-up failure when the old headlamp fails after replacing a new one. Overall the benefits and advantages are numerous: less hassle, cost savings, avoiding headlight failure, a brighter and more balanced beam, but above all, **safety**.

To help this, we've made **changing in pairs easier** by providing a range of twin-pack products. Make changing in pairs a **new habit**, because **two new headlamps** are **better** and **safer** than one.

Another clear example of **safety you can see**.

### It's important to change lamps in pairs.

**Filament age**  
The filament of older headlamps will break sooner.

**Light deterioration**  
At the end of their life, lamps project less light, thereby reducing visibility.

**Maintenance efficiency**  
It's faster, easier and cheaper to change both headlamps, rather than just one.

**Original quality lasts**  
Choosing Original equipment bulbs reduces the chance of early failure thanks to their higher quality standards.

# Our **pro-active solution** against xenon lamp **piracy**

**Counterfeit** Philips xenon lamps are becoming increasingly available through online and offline distribution channels. These counterfeit lamps are **poor imitations** of **inferior quality**. Buying, selling or being in possession of counterfeit products is illegal.

To **protect** our customers and all consumers from counterfeit Philips lighting products, we've created a **pro-active solution** using unique, **state-of-the-art** technology.

Philips **Certificate of Authenticity (COA)** is available on **every new xenon lamp package you order**.

Using the **Security code**, as well as other special security elements, professionals can verify the **authenticity** of the Philips product on a dedicated, fully secure internet platform. Professionals can either scan the QR code or go to [www.philips.com/original](http://www.philips.com/original).

Philips is committed to helping **protect** its customers from poor imitations of inferior quality that may damage a vehicle or result in personal injury.

Always ensure that you are buying **genuine Philips products**.

## Safety Xenon Vision

Ideal for replacement

- Philips original equipment quality xenon technology
- Single-lamp replacement technology: new lamp matches color temperature of the unchanged one
- Economical choice
- Homologated 4 600 K

Philips Xenon Vision allows you to replace a single burned-out lamp while **matching the color** of the unchanged one.

The Xenon Vision innovative replacement technology is the ideal economical solution for a **single-lamp replacement**.

To find the type of lamp you need for your car, visit our **12V application guide**

# Feel safe, drive safe

## More light Vision

30% more light\*

- Competitive price
- Greater light-beam projection
- High-quality quartz glass
- Philips original equipment quality
- Homologated 3 200 K

Producing **30% more light** compared to a standard lamp, Vision ensures excellent light-beam performance at a very **competitive price** with **original equipment quality**. Our Vision lamps produce a longer light-beam projection for **greater safety and comfort**.

\*Compared to a standard lamp

**Our Vision range, like all of our halogen and xenon headlamps, is made with high-quality, anti-UV quartz glass.**

- Greater pressure allows to produce more light and longer lifetime
- **Withstands** thermal shocks

**Without Philips quartz glass**

- Less resistance and shorter lifetime
- Danger of explosion

Available in C1 and B1 packaging

Available in

Sales and marketing tools see pages 98,99,102

Feel safe,  
drive safe

Available in S2 and B1 packaging

## More light VisionPlus

60% more light\*

- Superior quality with enhanced visibility
- Up to 25-meter longer beam\*
- High-quality quartz glass
- Greater driving comfort and safety

A faster reaction time can save lives. Philips VisionPlus produces **60% more light**, which allows drivers to see farther for greater **safety** and **comfort**.

Philips VisionPlus is the performance choice for **safety-conscious drivers**.

Offering **high performance** and **excellent value**, VisionPlus is the **right choice** for today's demanding drivers.

Standard

VisionPlus

\*Compared to a standard lamp

### VisionPlus signaling advantages

- Brake lighting is **visible earlier**, thanks to a more powerful light output.
- The following vehicle's **breaking distance** can be **reduced** by up to 3 meters at 100 km/h.

VisionPlus signaling is available in P21W, P21/5W

Feel safe,  
drive safe

## More light X-tremeVision

130% brighter light\*

- Maximum light, maximum performance
- Increased brightness
- Best-in-class lifetime
- Up to 45-meter longer beam\*
- High-quality quartz glass
- Greater driving comfort and safety

Philips X-tremeVision car lamps are the **brightest** you can buy. They outshine all other car lamps with up to **130% more brightness** and a **superior beam** length of up to 45 meters longer so that you can **see farther**, **react faster** and **drive safer**.

Standard

X-tremeVision

\*Compared to a standard lamp

**Perfect illumination** is especially important in the distance - usually between 75-100 meters in front of your vehicle. With Philips X-tremeVision you can see up to **45 meters further** and gain two seconds more reaction time. Philips X-tremeVision **boosts** your **visibility** with up to **130% brighter light** on the road. This helps you recognize obstacles and any potential **dangers earlier** than with any other halogen headlamp.

Available in S2 and B1 packaging

Drive with care

## Less replacement LongLife EcoVision

4x lifetime, less replacement

- Lasts 4 times longer\*
- No replacement necessary for 100 000 km
- Reduced maintenance
- Less waste, drive greener
- High-quality quartz glass
- Philips original equipment quality

Tired of **changing** your lamps all the time? With **4x lifetime** of a standard lamp, Philips LongLife EcoVision is the choice for drivers seeking to **minimize maintenance** on their vehicles. With Philips LongLife EcoVision drivers don't have to worry about replacing a headlamp for at least **100 000 km**. It is the right choice for drivers looking for an **environmentally friendly** lighting solution.

\*Compared to a standard lamp

Available in S2, C1 and B1 packaging

Available in

Drive with style

## Style WhiteVision

Intense white xenon effect

- Maximum visibility, premium look
- Maximum white light for greater contrast
- Philips original equipment quality
- High-quality quartz glass
- 100% road legal

Philips WhiteVision lamps add an intense white xenon look to your car headlights for a **premium driving experience** at night. The increased brightness with up to **4 300 K** makes WhiteVision the perfect combination of **style** and **safety**.

**Outperforming** any blue car lamps on the market, Philips WhiteVision headlamps are the **right choice** for drivers who want to drive with **style without compromising on safety**.

Safety has never been so attractive

Available in S2 and B1 packaging

# Drive with style

## Style

## Restyle with light

### ColorVision

Add a touch of color

- Innovative coating technology in blue, green, yellow or purple
- 60% more white light\* on the road
- Philips original equipment quality
- High-quality quartz glass
- 100% road legal

ColorVision adds a **touch of color** to your car optics in **blue, green, yellow or purple**. These innovative colored car lamps are **certified road legal**, so you can customize your ride while projecting safe white light.

\*Compared to a standard halogen lamp

spare kit  
essentials

For increased **safety**, it is **recommended** by most European countries that all vehicles be equipped with a **homologated spare kit**. Compulsory in some European countries, having a homologated spare kit in a vehicle will not only keep drivers in **compliance** with the law but will also keep them **safer** as they will always be prepared to **replace** a burned-out lamp.

# LED interior lighting for cars and trucks

Philips **LED interior lighting** illuminates the vehicle's interior with power and precision. The Philips **X-tremeVision LED** range provides light where it is needed the most, without distracting the driver. Choose a range of temperatures from **4 000 K** to up to **8 000 K**, from **powerful, warm white** to **ultimate blue** light for maximum perception and styling. The Philips X-tremeVision LED range produces up to **5 times more light** while using **13 times less energy**.\* Its **power, economy** and **12-year lifetime** are **simply incomparable**.

\*Compared to a standard lamp

LED interior lighting for cars and trucks

## Interior lighting

# X-tremeVision LED

- 4 000 - 8 000 K color temperature
- High-performance LED
- Perfect geometrical fit
- Heat and vibration resistant
- 12-year lifetime

Producing **5x more light** than standard incandescent lamps, the Philips 12V and 24V X-tremeVision LED ranges are equipped with **high-power LEDs** that illuminate the interior with a **cool, bright and precise** light without distracting the driver. They are available from **4 000 K** temperature up to **8 000 K** (depending on the lamp you choose).

Because of its **12-year lifetime** and exceptional **heat and vibration resistance**, it is the perfect choice for 24V interior lighting (trucks, buses and heavy-duty vehicles) and for those seeking an economical solution for the entire fleet. Offering a perfect geometrical fit, the Philips X-tremeVision LED interior lighting solution is the **ideal replacement for any vehicle**.

**X-tremeVision 4 000 K**  
Powerful Philips X-tremeVision 4 000 K **Bright white** is the perfect and **economical replacement** for a standard incandescent interior lamp.

**X-tremeVision 6 000 K**  
The Philips X-tremeVision LED 6 000 K **Daylight effect** illuminates the interior with power **where it's needed most**.

**X-tremeVision 8 000 K**  
The new Philips X-tremeVision LED 8 000 K **Cool blue** offers a unique **stylish blue xenon effect** for drivers seeking more style and the power of daylight.

## Daytime Running Light solutions

Discover our range of LED Daytime Running Light solutions, designed to **improve driver safety** by increasing vehicle visibility during the day. Easy to install, Philips OE Quality LED Daytime Running Light range is equipped with the latest high-power LUXEON® LEDs. To **enhance vehicle visibility** in any traffic situation and in all weather conditions, check out the ultra-powerful Philips **LED DayLightGuide**.

Its **revolutionary lens** and innovative lightguide technology offer an exclusive design signature **without dots** and boasts **wide-angle visibility**. For maximum **simplicity** and ease of **integration**, we offer the **stylish** and **compact** Philips **LED DayLight 9**.

Philips LED Daytime Running Lights, a must for **greater safety** and **style**!

# LED Daytime Running Lights European regulations

Since 2011, Daytime Running Lights (DRL) are **mandatory** on all new cars and small delivery vehicles in the European Union. Since August 2012 DRL are also mandatory on trucks and buses.

## Did you know?

Daytime Running Lights **increase the visibility of road users** and thus considerably **reduce the risk of accidents**. Research has shown that all road users, such as pedestrians and cyclists, may also benefit from DRLs. If almost every driver had their headlights on during daytime, more than 30 road fatalities and 500 serious road injuries could be eliminated in the Netherlands alone.\* Some of the drawbacks of DRLs, such as higher fuel consumption and higher emissions of harmful materials, are **reduced** considerably by using **energy-saving LED lighting** modules.

- DRL mandatory
- DRL recommended
- DRL mandatory outside of cities
- DRL mandatory in winter time

## Safety

### LED DayLight 9

Bright and attractive from any angle

High visibility for maximum safety

- **Bright from all angles**  
Multiple-angle mounting for wide-view light effect
- **Stylish, uniform illumination**  
New optical design with 9 LED dots
- **Fits most car models\***  
Legally mounted on bumper angles up to +/-40°
- **Easy installation on all cars**  
Smart clip-on system  
Hybrid, electric and start & stop compatible
- **Philips original equipment quality, 100% road legal**  
Water and gravel-impact resistant  
High-quality aluminum housing

The third generation of Philips Daytime Running Lights combines **superior style** and **increased visibility**. With its renewed optical design, the Philips DayLight 9 offers increased mounting flexibility: a **road-legal solution for any car** to stand out from the crowd.

\*Please refer to the Philips LED Daytime Running Lights application guide for an overview of all compatible vehicles and models.

## Safety and durability

# MasterLife

Outperforms everything on the road

- Lasts up to 4x longer\*
- Maximum vibration resistance 2x\*
- Extra robust double-coil filament
- High-performance quartz glass
- Philips original equipment quality

Philips MasterLife lasts up to **4x longer** while withstanding extreme **stress** and **vibration**. MasterLife offers the **best lifetime on the market**, lasting **4x longer** than the average headlamp by using a unique gas composition, together with the geometrical properties of the double-coil filament, designed to reduce tungsten evaporation. It features the vibration resistance of MasterDuty for maximum strength and durability. **MasterLife headlamps outperform the competition by far!**

It is the ultimate original equipment quality truck lighting solution with **maximum performance** and **minimum downtime**. With a **minimum failure rate** they keep a fleet productive and on the move by minimizing time-consuming interruptions. **MasterLife is the smartest choice for large fleet owners!**

# Durability MasterDuty

Built to last

- Lasts up to 2x longer\*
- Maximum vibration resistance 2x\*
- Reinforced mount and base guards against shock
- Extra robust double-coil filament
- High-performance quartz glass
- Philips original equipment quality

The Philips MasterDuty headlamps are designed for **maximum vibration resistance** and excellent **lifetime**. These headlamps **last 2x longer** and have **twice the vibration resistance** of an average lamp on the market. MasterDuty features increased mount and base stiffness for ultimate protection against mechanical shock as well as a robust double coil filament designed to withstand severe vibration while remaining stable. MasterDuty is the **right choice** for drivers seeking **toughness that lasts**.

\*Compared to average H4 or H7 24V lamps on the market.

# Headlight restoration kit

We developed the **Headlight restoration kit** to restore automobile, truck and two-wheeler lenses to like-new condition with **professional results** without the need of any power tools. This is a high-quality and **cost-effective alternative** to complete headlight replacement. Its **UV-protection** is guaranteed for two years. A smart addition to automotive lighting and a handy **addition to your toolbox!** Your customers' satisfaction guaranteed!

## Safety

### Headlight restoration kit

Restores headlight lenses to like-new condition!

- Less glare and up to 100% brighter lens
- Provides safer night-time driving
- Removes haze and yellowing from harmful UV-rays and dirt
- Professional results without power tools in 30 minutes
- High quality and economical
- 2-year UV-protection guaranteed

Removes the fading and yellowing of headlight lenses and restores them to their original state of **transparency** for greater safety. Headlight lenses fade and oxidize from constant exposure to the elements and become scratched due to impacts. The **protective UV coating** applied at the factory deteriorates causing the lenses to yellow, which can result in a **40% loss of night-time light**. The **Headlight restoration kit** contains all you need to restore two headlight lenses of any vehicle for your customers' **safety** and **satisfaction**.

# Professional LED Inspection lamps

## Defeat darkness

There's **no room for errors** when you are in a **race**. And when the nearest town is hundreds of kilometers away, you need to be sure things work at their best.

Our LED Inspection lamps are designed to **illuminate every detail** with pinpoint precision, letting you **focus** on getting the **job done**.

So, no matter how challenging the situation is, when it puts your skills to the test, you can **be sure** you've got the **right tools for the job**.

“

The Philips LED Inspection lamps are a **big improvement** on the LED lamps we used to work with. The **light output** is **enormous**; they **outperform** everything I've ever used before. They can withstand fluids and are **resistant** to sand, dirt, grease. They're scratch resistant and **robust**.”

Andree van de Kamp

# HDL10

50° beam angle

### Quality finish

- 90° pivoting lamp head
- Adjustable headband
- Water-resistant
- Powered with 3 Philips AAA batteries

### Wide beam angle

- 50° beam angle
- Long-lasting LED

### Dual light mode

- 100 lm Boost LED light for high-precision tasks
- 50 lm Eco LED light for a quick inspection

Philips high-power LED head lamp is a perfect tool for hands-free repairs. With 90° orientable head you can easily direct your light wherever you need to see. The eco and boost light modes as well as its wide beam angle offer superior illumination of your work space.

LPL19B1

130 lm

# Penlight Professional

The portable inspection tool

### Very intense white light for optimal vision

- High-quality LEDs with 130 lm light output
- Natural white light of 6 000 K

### Accesses very narrow cavities

- LED pointer on top 20 lm
- Small and compact

### Up to every inspection job

- Water and dust proof IP54
- Shock-resistant housing
- 11-hour battery autonomy

Philips Penlight Professional is a durable and reliable inspection tool featuring Six long-lasting and powerful LEDs producing 130 lumens of bright, natural white light for precise inspection of any area.

LPL18B1

90 lm

# Penlight

See clearly, work better

### Brighter and longer lasting

- 6 powerful, high-quality, long-lasting LEDs
- White and very intense light

### High resistance

- Water and dust-proof IP20

### See what remains hidden to others

- Eliminates all shadows
- Focus light: 20 lm

### Battery autonomy of up to 8 hours

The Penlight is compact and easy to operate in confined spaces. Six high-performance, long-lasting LEDs produce a powerful light where needed the most.

LPL28RECHX1

145 lm

# Penlight Premium

Compact, USB-rechargeable

### Comfortable light for fatigue-free work

- High-power LUXEON® LEDs with 145 lm light output
- Natural white light of 6 000 K
- Homogeneous and wide beam

### See what remains hidden to others

- Strong LED pointer of 120 lm
- Robust, comfortable and hands-free

### Rotatable clip holder with integrated magnet

- Robust, aluminum housing with soft grip

### Fast charging and consistent light output

- Latest battery technology (1800 mAh + USB recharging) delivers great battery life
- Up to 6-hour battery autonomy.

The portable worker's companion that combines high-power LED technology with a robust, user-friendly design in a compact size. Philips Penlight Premium is the choice for those who want maximum light in a small size.

The Philips LED Inspection lamps range is specifically designed for **maintenance** and **long-term inspection work**. These powerful inspection tools are available in either **rechargeable** (RCH) or **cabled** (CBL) versions.

LPL32X1

## RCH5

110 lm/55 lm  
Boost/eco modes

Ultra-slim and versatile design

### Superior bright light

- Boost/eco light modes: 110 lm/55 lm
- 3 SMD LEDs
- Wide-beam angle - 120°

### Versatile design

- 180° tilting lamp head
- 360° rotating hook
- Strong magnet and handy belt-clip

### Reliable battery

- Up to 5 hours of autonomy
- Fully recharged in only 2 h 30

LPL20X1

## RCH10

150 lm

New easy-open cap with magnet

### More light output

- White LED light

### High resistance

- Impact-resistant: IK07
- Water-resistant: IP54

### Hands-free lighting

- Cordless, with rotatable hook

The compact rechargeable LED Inspection lamp is ideal for quick inspection and longer repair operations. It eliminates all shadows with its strong 120° light beam while its 360° rotatable hook provides a hands-free working environment.

Upgrade

LPL33X1

240 lm/120 lm  
Boost/eco modes

## RCH21

Rechargeable compact LED Inspection lamp

### High power white LED light

- Defeats darkness
- High-power LED light: 240 lm boost & 120 lm eco
- Wide beam angle - 90°

### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protected: IP54

### Ultra-durable battery

- New battery with 5x longer lifetime
- Long autonomy and ultra-fast recharge

This new-generation Philips rechargeable LED Inspection lamp is designed for any type of maintenance job. Thanks to its unique shock-proof flexible head equipped with high-power LEDs, a powerful light is delivered under any circumstances.

New

LPL34UVX1

350 lm/150 lm  
Boost/eco modes

## RCH31UV

Rechargeable compact LED Inspection lamp with UV

### High-power LED light and UV leak detector

- High-power LED light: 350 lm boost & 150 lm eco
- Wide beam angle - 90°
- UV light leak detector

### High resistance

- Strong impact resistance: IK07
- Water, dust and solvent protected: IP54

### Ultra-durable battery

- New battery with 5x longer lifetime
- Long autonomy and ultra-fast recharge

Philips RCH31 UV is equipped with high-power LEDs providing 350 lm light output in boost mode and 150 lm in eco mode. You can spot the smallest detail in any dark area!

LPL35X1

330 lm

## CBL10

### Cabled and compact LED Inspection lamp

#### High-power white LED light

- Defeat darkness
- High-power 330 lumen LED light
- Wide-beam 120° angle

#### High resistance

- Resistant to chemical and workshop solvents
- Strong impact resistance: IK07
- Water and dust protected: IP54

#### Compact and hands-free lighting

- Powerful light in a compact design
- 360° adjustable and retractable hook

Philips LED CBL10 Inspection lamp features powerful LEDs for an intense white light and a bright wide beam to defeat darkness. Designed to optimize clarity and vision quality, the 6 000 K white light also improves visual comfort for fatigue-free work.

LPL14X1

330 lm

## CBL30

### LED Inspection lamp with focus light

#### Best-in-class light output

- 12 high-power LEDs producing 330 lm light output and a 100° wide angle
- Strong 90 lm LED pointer
- 6 500 K color temperature

#### Robust and ultra-resistant

- Robust protective housing: IP54 and IK07
- Operates from -10° up to 40°

#### Ultra-slim and easy-to-use

- Ultra-slim design allows to reach even into the narrowest of spaces
- Versatile 360° magnetic hook to clip onto all surfaces
- Soft ergonomic grip

The ultra-slim LED Inspection lamp delivers a great amount of light, using powerful Philips LEDs mounted on a thin frame with an LED focus light on top.

LPL22X1

330 lm

## CBL40

### LED multi-purpose Inspection lamp

#### Dual usage: corded and cordless

- 6-meter cable
- Up to 2 hours of cordless usage

#### More light output

- High-power LEDs
- 100° beam angle

#### More eye comfort

- White LED light
- 6 500 K

#### Powerful LED focus light

- With high-power LED
- Hands-free lighting
- 360° clipping hook with magnet

With its smart back-up battery, the LED multi-purpose Inspection lamp offers the comfort of a traditional lamp and the benefits of a rechargeable lamp. Its slim design and focus light, illuminates even the smallest details.

LPL24X1

900 lm

## CBL50

Professional LED bonnet\* lamp

### More light output

- High-power LED
- 100° beam angle

### More eye comfort

- White LED light
- 6 500 K

### High resistance

- Robust aluminum housing
- Water and dust-proof: IP54 and IK07

### Hands-free lighting

- Adjustable telescopic mounting

The Philips LED bonnet lamp offers a powerful 900-lumen light output to ensure total illumination of your working area. With its adjustable telescopic mounting, this professional bonnet lamp will illuminate any engine compartment.

\*Bonnet = hood

LPL263MODX1

750 lm

## MDLS – Multidirectional Lighting System

All-in-one lighting system for professionals

### Four tools in one

- Use as light box, torch, spotlight and light bar

### More light output

- High-power LUXEON® T LEDs for long-lasting comfortable light output
- Natural white light of 6 000 K
- Two light modes: 360 and 750 lm
- Powerful magnet, rotatable heads and adjustable lenses

### Robust tools

- Robust protective housing: IP54 and IK07
- Sturdy toolbox for storing and recharging of the modules

### Never lose your lamp again

- Improved color scheme for easy relocation

The MDLS is an all-in-one professional lighting solution, representing a new generation of workshop lamps designed for professionals. Robust and hands-free, the three multidirectional modules will provide you optimal visibility without shadows.

# Lighting technology explained

## ■ Asymmetrical beam pattern

A offset beam pattern for low beam applications. Provides a longer beam in the lane of travel rather than in the opposite lane, which avoids blinding drivers in oncoming traffic.

## ■ Ballast

The electronic driver that controls a xenon HID bulb.

## ■ Base

Bottom part of the bulb which ensures a proper mechanical and electrical connection with the lamp unit of the car. Its precision is important for a correct beam pattern.

## ■ Board voltage

Electrical voltage in the board net of the vehicle. In cars, the operational voltage at the bulb connector typically varies between 13 and 14 volts (V). The official test voltage for halogen headlight bulbs is 13.2 V according to ECE R37. For trucks with a 24 V board net the test voltage is 28 V. The board voltage has a significant impact on filament bulb lifetime. In general, a 5% voltage increase reduces the lifetime by 50%.

## ■ Burner

Burner is the glass part of a halogen or xenon HID bulb in which the light emission is generated. It consists of hard or quartz glass and contains the filament and the two electrodes.

## ■ Candela (cd)

Unit of luminous intensity that measures the amount of luminous power emitted by a light source in a particular direction.

## ■ Color temperature

Thermal measure for light color. Derived from the color emitted by a "black body" which is heated up to a certain temperature (see also Kelvin).

## ■ Cut-off zone

The line between the bright and dark zones of low beam light. Above the cut-off zone the amount of light is limited in order to avoid blinding oncoming traffic.

## ■ D(...)

Nomenclature for xenon HID bulbs where **D** stands for "discharge." Available technical types: **D1S, D1R, D2S, D2R, D3S, D3R, D4S, D4R** and **D5S**.

**D1** and **D2** First bulbs introduced in 1991

**D3** and **D4** Mercury-free bulbs that replace D1 and D2  
For D1 and D3, the electronic high-voltage starter is already integrated in the bulb base. The **S** type is used with projector (lens) systems. Version **R** is used in open reflectors and features an additional coating on the outer tube (pinstripe) which blocks out some areas to avoid glare. The **D5S** is a 25-watt bulb with integrated starter and integrated ballast.

## ■ Discharge bulb

The correct, technical term of the so-called xenon bulb is **high-intensity discharge** bulb. The light is emitted by an electric arc which is produced between two electrodes.  
**See also** HID and xenon light.

## ■ DOT

The United States Department of Transportation which oversees federal highway, air, railroad, maritime and other transportation administration functions. It fulfills a role similar to the Economic Commission for Europe (ECE).

## ■ DRL

Daytime Running Lights.

## ■ ECE

Economic Commission for Europe. One of five regional commissions of the United Nations (UN) based in Geneva that contributes to enhancing the effectiveness of the UN through the regional implementation of outcomes of global UN Conferences and Summits. The ECE is responsible for harmonizing technical specifications for vehicles whose regulations are also mandatory in many countries outside Europe.

## ■ ECE R

This stands for the ECE Regulation.

Examples for vehicle lighting:

**R37** Filament lamps

**R99** Gas-discharge light sources

**R48** Installation of lighting and light-signaling devices

## ■ Electric arc

The connecting luminous discharge between the two electrodes of a xenon HID bulb. This is similar in principle to a bolt of lightning. The electric arc is created by the high-voltage starter and stabilized and controlled by the ballast.

## ■ Electrodes

Electrical conductors which are positioned opposite each other in the vessel of a xenon gas-discharge bulb. The electric arc, which emits light, is produced between the electrodes.

## ■ E-mark

The ECE mark of approval. The digit following the "E" indicates in which country the approval has been granted. For example: E1 indicates Germany and E2 indicates France. An approval granted by one ECE member is valid for all member states and is typically adopted by national regulations. Single minor deviations are possible.

## ■ Festoon

A tube-shaped bulb with contacts at each end such as C5W, which is commonly used for interior and license plate lighting.

## ■ Filament

A coiled tungsten wire that emits light.

## ■ H(...)

Nomenclature for halogen bulbs. H = halogen.

The bulbs are numbered consecutively.

The most common types are:

**H1** First halogen bulb (single filament).

**H4** Double filament for both low beam and high beam application in one headlamp unit.

**H7** Most common halogen bulb in Europe for low beam, high beam, and fog lighting.

## ■ Halogen

A gas that is used to create the halogen cycle process in a light bulb. During operation the tungsten molecules evaporate from the tungsten. In the cycle process they combine with the halogen molecules and fall back to the wire. This extends the lifetime of a bulb and allows operation at a higher intensity. Halogen bulbs contain a high-pressure halogen filling. Non-halogen incandescent bulbs often use a vacuum.

## ■ HB(...)

ECE name of original North American bulb types which were approved for use in Europe as well. For example: HB3 refers to 9005 and HB4 refers to 9006.

## ■ Hg

Symbol for mercury (Latin: hydrargyrum). Xenon bulb types D1 and D2 still contain approximately one third of the amount of mercury as a normal domestic energy-saving bulb. D3, D4 und D5 are completely mercury free.

## ■ HID

High Intensity Discharge. Correct technical name for a so-called xenon bulb.

**See also** gas-discharge bulb, xenon light, xenon system.

## ■ High-voltage starter

Creates high voltage pulses of approximately 20.000 volts to ignite the electric arc in a xenon HID bulb.

## ■ HiPerVision

Very compact signaling-bulb range with high-precision filaments and a long lifetime. For use in signaling lights, fog lamps, rear and daytime running lights.

## ■ Illuminance (lux)

Contrary to luminous flux (lumen), which is a measure of the total amount of light emitted by a light source, illuminance describes the amount of luminous flux per unit area, such as on the road. This is measured with a lux meter.

## ■ Kelvin (K)

A unit of measure of temperature based upon an absolute scale whereby zero (minus 273° C) represents the point where all thermal motion ceases. In lighting, however, this is a measure of color temperature. The higher the color temperature, the whiter and cooler the light appears.

## ■ LED

Light Emitting Diode.

## ■ Lifetime

Statistical data that indicate the failure rate of a percentage of bulbs operated at a specific voltage over a certain period of time. Common lifetime data indication:

**B3** Time when statistically 3% of the test samples have failed

**TC** Time when 63% of the test samples have failed.

## ■ Luminance

The intensity of light emitted from a surface per unit area in a given direction from, for example, the filament or the electric arc of a xenon HID bulb. An important indicator of the amount of light a headlamp unit provides on the road. The unit is candela/m<sup>2</sup> (cd/m<sup>2</sup>).

## ■ Lumen (lm)

Unit of luminous flux.

## ■ Luminous flux (lumen)

The total amount of light that is emitted by a light source in all directions.

## ■ Lux (lx)

Unit of illuminance. 1 Lux = 1 lm/m<sup>2</sup>.

**See also** Illuminance.

## ■ Lux meter

Illuminance measuring device.

## ■ Pb

Symbol for lead (Latin: plumbum).

All Philips automotive bulbs are **lead-free**.

## ■ Quartz glass

Temperature and pressure resistant glass for halogen and xenon HID bulbs. The glass also has a special coating to block out harmful ultraviolet (UV) light.

## ■ Tungsten

Filament and electrode material.

## ■ UV-block

Ultraviolet (UV) blocking glass absorbs the UV light created by the filament or the electric arc. UV block is mandatory for all ECE complying car bulbs because UV light can damage the plastic cover of the headlamp.

**See also** Quartz glass.

## ■ Wedge base

Bulb with a glass base, such as W5W. Mainly used for parking lights, side indicators and interior lighting.

## ■ Xenon (Xe)

One of the noble gases. Commonly used to refer to HID bulbs.

## ■ Xenon light

Headlights with HID bulbs.

**See also** D(...), Discharge bulb, HID.

## ■ Xenon system

A complete xenon system consists of the HID bulb, the high-voltage starter and the electronic ballast which controls the electric arc.

Welcome to our **website**. Our **product category page** allows you to discover our full portfolio of lighting products. From **headlamps** (halogen and xenon) to **signaling and interior lighting** (conventional and LED), **LED Daytime Running Lights** and **accessories** such as our **Professional LED Inspection lamps**. You may also access directly to our handy and informative **tool pages**.

## Category page

### Product selector tool

Our **Product selector tool** (Application guide) helps you find the right lamp for your vehicle in **three simple steps**:

- 1 Click on the icon of the lamp you need to replace
- 2 Using the pull-down menus, enter the vehicle information and click **Go**
- 3 See the result of the type of lamp you need and the Philips offer you can choose from.

### Experience your light

Our rich **tools pages**, such as the **Car light experience** module, let you experience and demonstrate our powerful lighting by comparing our upgrade lamps to a standard one.

## Product pages

Our **product pages** are dedicated to automotive lighting, LED inspection lamps and two-wheeler lighting. Discover our products, our **innovative technology** and special events. The **product overview page** presents all the information you need about each of our products: from product images, marketing support images and videos, technical and commercial specifications, as well as product availability.

Once you've selected the product you need, you can use our **Store locator** tool to **find the closest point-of-purchase** to buy our product.

## Specific content pages

### Xenon counterfeit

To **protect our customers and consumers** from **counterfeit Philips xenon lighting products**, we've created a pro-active solution using unique, state-of-the-art technology. Philips **Certificate of Authenticity (COA)** is available on every new xenon lamp package you order. Using the **security code**, as well as other special security elements, professionals and consumers can verify the authenticity of the Philips product on a dedicated, **fully secure internet platform**. They can either scan the QR code or go to [www.philips.com/original](http://www.philips.com/original).

### Xenon warranty program

We introduce **Xenon LongerLife warranty**. Xenon lamps have the longest lifetime of any of our automotive lighting products. In fact we're so confident, we've added an **extra 3-year warranty** for free, in addition to our standard 4-year warranty.

To **register** your new Xenon LongerLife lamps follow **three simple steps** on our website [www.philips.co.uk/xenonwarranty](http://www.philips.co.uk/xenonwarranty)

**Important** The Xenon LongerLife is available only in Scandinavia, Germany, Netherlands, Poland, Czech Republic and Romania.

# Sales and marketing **tools**

We've created useful **tools** to satisfy your customers' needs and expectations and to help you market and sell Philips Automotive products with success. As always, we strive to **educate** the consumer with coherent and **consistent in-store** information. We invite you to **place your order** using the ordering information or simply **contact** your Philips sales representative!

# In-store excellence

The in-store experience is essential. We constantly strive to improve the consumers' shopping experience by identifying and understanding their behavior and by satisfying their wants and needs. We strive to educate the consumer by delivering clear and comprehensive messages through packaging, displays and merchandising. **In-store excellence is our goal.**

We offer **complete kits** to dress up your shelves. These may be customized if needed. We provide **shelf-planning** services too.

For more information, contact your Philips sales representative.

### Headers

Help identify the given area among a complete category thanks to clear denomination and visualization.

### Sub-headers

Help to highlight main product benefits in a colorful and easy way, one for each product range. Easy to install on first row above product range.

Tool images are non-contractual and may be modified by Philips.

# In-store excellence

Side A Side B Side A Side B

- Separator wings**
- Create extra milestones for the shopper's in-store experience.
  - Split the full shelf into sub-categories and facilitate readability off-the-shelf.
  - Offer additional communication space.

**Rotating informative POS**  
Provides essential information to shoppers in an attractive and inviting way. Easy-to-install (perpendicular to the peg-board).

12V application guide

**Lamp type indication**  
After checking the lamp type needed in the application guide, it simplifies the identification of the lamp type on the shelf. It slides easily into the price hangers. Color of the lamp-type is linked to the color of the range.

# Join the diamond hunt

## The loyalty program designed for you

Automotive Diamonds is a loyalty program, totally free to join. It rewards garages and workshops for purchasing spare parts from original equipment suppliers. A majority of the spare parts that garages order each year are now covered by the automotive Diamonds program. Products that are included in this program come with Diamond points that can be redeemed for a wide range of incentives including multimedia gifts, accessories and tools for their workshops as examples among many categories.

Our goal is to support you and your team even more effectively and to reward your loyalty generously.

## How to register

**1** Connect to [www.automotivediamonds.com](http://www.automotivediamonds.com). In the tabs menu, select Register.

**2** Fill in the form and click on **Continue** with step 2/2. Select the closest address and confirm.

**3** If you wish to receive special offers and bonus Diamonds, sign up for the newsletter and earn extra 50 Diamonds. Accept Data protection and terms and click on **Register now**.

**4 Important.** You will receive a confirmation e-mail that will invite you to complete your registration. Click on the link and type your password.

Join the Automotive Diamonds program with Philips and receive 500 Diamonds free! During registration, simply fill in the code: **CA64BC**

## How to redeem your awards

A collector box is included in your welcome package to facilitate labels collection.

Just send the box with labels and your account will be credited with Diamonds.

Discover our loyalty program online catalog and order the gifts you prefer with your Diamonds!

## For more information

The Automotive Diamonds program is available in **Germany, Austria, Spain, Netherlands, Belgium, Poland and Czech Republic**. Our partners are active only in **certain countries**. For more information please visit the Automotive Diamonds website or contact your Philips representative.

# Lamps

# Technical illustrations Bases

# Understanding Philips ordering codes

All our automotive lighting products can be ordered using **Philips Order Entry**.  
With Philips Order Entry you can identify the **lamp type**, the **product range** and the **packaging type**.

Example: **12972XVB1**, H7 X-tremeVision, single blister

## 1 Lamp type

Every **lamp type** is designated by Philips with a unique number.  
• All 12V lamps start with 12 (for example, 12972 for H7 12V)  
• All 24V lamps starting with 13 (for example, 13972 for H7 24V)

## 2 Range type

Most lamp types are available in different performances or designs, indicated by their range type which is also linked to a certain color code (PR – Vision, orange; VP-VisionPlus – dark red, etc.). See Which lamp for which function on pages 26–27 to see how color codes are used to show the availability of each lamp in a specific product range. The color distinction is also used in all ordering codes pages. The bar below the products shows the available ranges. Products in standard range are marked with a grey bar.

	<b>Vision</b> 30% more light	Range type <b>PR</b>
	<b>VisionPlus</b> 60% more light	Range type <b>VP</b>
	<b>X-tremeVision</b> 130% brighter light	Range type <b>XV</b>
	<b>LongLife EcoVision</b> 4x lifetime, less replacement	Range type <b>LLECO</b>
	<b>WhiteVision</b> Intense white xenon effect	Range type <b>WHV</b> or <b>BVU</b>
	<b>ColorVision</b> Add a touch of color	Range type <b>CVP</b>
	<b>Standard</b>	

## 3 Packaging type
